Product Description

Round USN Command Metal Collectible Coins 5mm With Gold Finish

Product Description:

The 3D And Epoxy design of these coins adds depth and texture, making them truly stand out. The Translucent Enamel gives the coins a unique look, with the design appearing to be almost floating within the coin.

These coins are perfect for collectors, as well as for use in various applications such as promotions, giveaways, and awards. The design of these coins features the USN Command, adding a touch of prestige and honor to any occasion.

The use of Zinc Alloy as the material for these coins ensures durability and longevity. The coins will not easily tarnish or lose their shine, making them a great investment for any collector or organization. The Die Casting process used in the production of these coins ensures that every detail is captured, resulting in a high-quality product that is sure to impress.

In summary, our Zinc Alloy 3D Coin with Translucent Enamel design is a must-have for any collector or organization. The unique and eye-catching design, coupled with the use of high-quality materials and production process, make these coins a great investment. Whether for personal collection or for promotional purposes, these Custom Souvenir Coins are sure to make a lasting impression.
