## Product Description

### Zinc Alloy Antique Gold Plating Metal Keychain Animal Design with 25mm Split Ring

#### Product Description:

The keyring is made using a die-casting process, which ensures that it is strong and durable. This process involves injecting molten metal into a mold, which is then cooled and hardened to form the final product. The result is a keyring that is solid and robust, making it perfect for everyday use.

The keyring is also plated with antique gold, giving it a classic and timeless look. This plating process involves applying a thin layer of gold to the surface of the keyring, which gives it a lustrous and attractive finish. The antique gold plating also helps to protect the keyring from wear and tear, ensuring that it looks great for years to come.

The keyring has a thickness of 3.5mm, which makes it sturdy and substantial. This thickness ensures that the keyring is easy to grip and hold, making it perfect for those who have difficulty with fine motor skills. The keyring also has a size of 50mm, which is large enough to make it easy to find in a bag or pocket, but not so large that it becomes bulky or cumbersome.

If you're looking for a custom metal keyring that is both stylish and practical, then our Metal Die Casted Keyring is the perfect choice. With its animal design, antique gold plating, and robust construction, this keyring is sure to become a favorite accessory for years to come.

#### Features:

#### Applications:

The metal 3D key tag is a perfect gift for anyone who loves unique and interesting keychains. The 3D design on the keychain is eye-catching and makes it stand out from other keychains. The antique gold plating on the keychain adds to its overall look and makes it even more attractive. The thickness of the keychain is 3.5mm, which makes it sturdy and strong. The diameter of the split ring is 25mm, which is perfect for holding all types of keys.

The metal antique keychains are perfect for a variety of occasions and scenarios. They can be used as a gift for a friend or family member who has just bought a new car or moved into a new home. The keychains can also be used as a promotional item for a company or business. They are great for handing out at trade shows or events, as they are small and easy to carry around. The keychains can be customized with a logo or message, which makes them even more special.

The metal 3D keyrings can also be used as a way to show support for a cause or organization. They can be customized with a message or logo that represents the cause or organization. The keychains can be sold to raise money for the cause or given out as a thank you to those who have donated. The keychains are small and easy to carry around, which makes them perfect for spreading the message and raising awareness.

In conclusion, the metal antique keychains from Progifts are a great investment for anyone who wants a durable and long-lasting keychain. The 3D design and antique gold plating make them unique and attractive, while the thickness and split ring diameter make them sturdy and strong. They are perfect for a variety of occasions and scenarios, including as a gift, promotional item, or way to show support for a cause or organization.
