Product Description

Precision Die Struck Lapel Pins Your Shield Designs Expertly Crafted

Product Description:

The Antique Die Struck Pin features an Antique Gold plating, which gives the pin a classic and elegant look. The Antique Gold plating is achieved through a process in which a thin layer of gold is applied to the surface of the pin. This plating adds to the durability of the pin and enhances its appearance.

The Die Struck Metal Pin is named the Die Struck War Department Pin. This name is a reflection of the design of the pin, which features the emblem of the War Department. The emblem is created using the die striking process, which results in a detailed and accurate representation of the emblem.

The Die Struck Metal Pin has a size of 1.5 inches, which is a standard size for metal pins. This size makes the pin easy to wear and display while still being noticeable and eye-catching.

The Die Struck Metal Pin comes with a Butterfly Clutch attachment, which is a common type of pin back. The Butterfly Clutch is a secure and easy-to-use attachment that keeps the pin in place while it is being worn.
